<http://www.mobilityengineering.com.au/restraint-fitting-stations-map.htm>**

Introduction

The following list outlines the locations of the NSW RMS Authorised Restraint Fitting Stations. The fitters system features 2 individual tiers which can be defined as follows:

TIER 1 Fitting stations that offer a 'Full Fitting Service' being the simple installation and set up of child restraints and fitting of anchor bolts/fittings to the factory OEM child restraint anchorage points in the vehicle **in addition** to offering a modification service, having the ability to modify your vehicle and introduce restraint systems and anchorage points where there originally was not one fitted from the vehicle manufacturer.

It should be noted that not all vehicle will have a compatible option and some vehicles are not suitable for the fitting of child restraints and restraint systems.

TIER 2 Fitting stations that offer a 'Simple Fitting Service' being the simple installation and set up of child restraints and fitting of anchor bolts/fittings to the factory OEM child restraint anchorage points in the vehicle.
