Dear Ian Fitzgibbon, Convenor of Neighbourhood Forum 8,

KOALA FOOD FOREST FOR ELEEBANA RESERVE KOONAWARRA

As part of Council's Urban Greening Program and wider conservation efforts, Wollongong City Council is excited to be partnering with Symbio Wildlife Park to develop a Koala Food Forest.

This conservation project involves planting up at 900 specially selected eucalyptus tree species in a vineyard style planting at Eleebana Reserve in Koonawarra. Once the trees are established, the leaves will be sustainably harvested in sections from time to time to help feed the growing family of koalas who are part of Symbio's conservation breeding program. The leaves will also serve as a potential food source for koalas outside of Symbio who are in emergency care as a result of a natural disaster like the bushfires of 2019-20.

In addition to providing a food source, these trees will also offer the benefits of more shade, help to cool the area, restore local biodiversity, and absorb harmful emissions. It is estimated that each mature tree planted on this site will offset 21 kgs of CO2 per year. This site will also provide an educational opportunity for local students.

Key Facts about the Koala Food Forest

- A vineyard-style planting consisting of carefully selected eucalyptus tree species.
- It will be made up of up to 900 tube stock which will be planted in a selected area (see map) within Eleebana Reserve
- The Koala Food Forest will grow on a part of Eleebana Reserve. A large space in front of the Koala Food Forest will remain open for community recreation and there will be a dog walking area around the perimeter.
- The established trees are expected to reach approximately three metres high and two metres wide in 18-24 months after planting, with maturity size managed up to 4 metres high and three metres wide.
- Once the trees are established, Symbio will sustainably harvest the leaves to feed the koalas in their care. Only 25-100 small branches (or approximately a ute-load) will be collected every 1-2 weeks. This will ensure there will be a constant supply of leaves throughout the year while also maintaining the forest's aesthetics. Secateurs or pole tree pruners will be used to remove the leaves.
- In the event of large-scale natural disasters, such as the 2019-20 bushfires, this site will potentially be utilised as an emergency food source supply for koalas in emergency care.
- For more information about this project, visit <https://wollongong.nsw.gov.au/koala-food-forest>
- For more information on Symbio Wildlife Park's Koala Conservation project, visit <https://symbiozoo.com.au/purchase-a-tree-to-save-koalas/>

Subject: September 13 Neighbourhood Forum 8 meeting

Good afternoon,

Council is preparing for the public exhibition of the West Dapto Urban Release Area – Biodiversity Certification Strategy, and are hoping that 2 Officers (Brett and Julia) can attend and present at the **September 13th** meeting.

Could we please request you add some time to your agenda for this and advise to confirm by return email?

Regards

From : Elizabeth Webster,

Re Proposed Wind Farm Project:

Questions for meeting

1. Is council in favour of the proposed offshore wind farm project?
2. If yes, how does that impact the possibility of a navy base and or submarine base at Port Kembla ?
3. How does the proposed floating foundations of these towers impact current port movements and any further increases in those movements?
4. What on land infrastructure is proposed? This was mentioned in a survey but no detail was given as to what or where the infrastructure would be.

Subject: Response to Ian Fitzgibbon Neighbourhood Forum 8 - RE Integral Energy Park - CR0217523

Good Afternoon Mr Fitzgibbon

Please find attached a response for Neighbourhood Forum 8 regarding the future use of Integral Energy Park as requested by Councillor A Martin.

Should you require any further information, please do not hesitate to let us know.

Kind regards

Kristy Rowlands (on behalf of)
Lucielle Power
Manager Property and Recreation

Item 6:**From:** Will Coote <WCoote@wollongong.nsw.gov.au>**Sent:** Wednesday, September 6, 2023 4:40 PM**To:** ian.fitzgibbon@outlook.com <ian.fitzgibbon@outlook.com>**Subject:** Notification of Public Exhibition of Planning Proposal - Review of large R2 zoned lots in the Illawarra Escarpment Foothills

To Neighbourhood Forum 8
C/o Ian Fitzgibbon

Public Exhibition of Planning Proposal – Review of large R2 zoned lots in the Illawarra Escarpment Foothills

Council is seeking feedback on a Planning Proposal to rezone certain large R2 zoned lots in proximity to the Illawarra Escarpment. This follows the 3 April 2023 resolution of Council and the 17 August 2023 Gateway Determination by the NSW Department of Planning and Environment to progress the Planning Proposal to Public exhibition.

The Proposal seeks to amend the Wollongong Local Environmental Plan 2009 zones and controls for certain land connecting to the Illawarra Escarpment in Balgownie, Mount Pleasant, Stanwell Park, Wombarra, Cordeaux Heights, Figtree, Keiraville, Mount Keira, Mount Ousley and Farmborough Heights, to minimise the potential environmental impacts of future development. The proposal will be on exhibition between 6 September and 11 October 2023.

Copies of the Planning Proposal and supporting documents can be viewed at:

- All Wollongong City Council Libraries during opening hours.
- Council's Customer Service Centre Ground Floor Administration Building 41 Burelli Street Wollongong between 9am and 5pm weekdays
- Council's engagement website: <https://our.wollongong.nsw.gov.au/>

Submissions should quote **PP-2023/3** and be addressed to:

The General Manager,
Wollongong City Council,
Locked Bag 8821
WOLLONGONG DC NSW 2500
Emailed to: council@Wollongong.nsw.gov.au

Please note that submissions become public documents and may be viewed by other persons on request. Please refer to Council's Privacy website for more information <https://www.wollongong.nsw.gov.au/links/privacy>

Submission close **11 October 2023**.

For enquiries, please contact William Coote via the details provided.

Item 7:

Romeo Cecchele

Tue, Sep 12, 11:45 PM

Hello Heather,

Can we please get answers to the following questions from our councillors being:

1. Medium/large pothole on Princes Highway pedestrian walkway adjacent to Dapto Hotel still not fixed after many complaints, why?
2. Five piles of household items along Bong Bong Road West past Brooks Reach still have not been collected after multiple requests, why?
3. When will work start on the dangerous first 700 meters of West Dapto Road in storm events going to be upgraded to four lanes as we have been requesting this for 14 years already?

Kind Regards,
Romeo Cecchele.

Item 8:

Cr Dom Figliomeni

Wed 13.9.23 7:38 AM

Hi Romeo

I have forwarded the questions to Council for a response

Regards
Dom

Item 9: Cr Linda Campbell -forwarding information from the Lord Mayor

Tue, Sep 12, 11:12 Am

Here is some info the Lord Mayor provided recently to a resident regarding the proposed offshore wind zone.

The declaration of an offshore wind zone is the responsibility of the Federal Government and the Department of Climate Change, Energy, the Environment and Water is currently seeking feedback on the proposed zone. Please visit the [Consultation hub | Offshore renewable energy infrastructure area proposal: Pacific Ocean off Illawarra region, NSW - Climate Change \(dcceew.gov.au\)](https://www.dcceew.gov.au) for more information on the declaration process and providing feedback. I encourage you to head online or attend one of the drop-in sessions commencing on 18 September to learn more about the declaration and provide your input.

This proposal has the potential to help Wollongong become a clean energy city, explore innovative technology, and create new jobs for our community. Strategically, while the concept is still in its early days, it does align with Council's efforts to respond to the climate emergency. We're committed to be open to discussions and engage with new opportunities like these, particularly as they're further refined and more detailed information becomes available, so that we can advocate for the best outcomes for our city, community and local environment. We support local renewable energy generation which can drive down industrial emissions, help us reach net zero greenhouse gas emissions for Wollongong by 2050, and has the potential to offer significant local employment opportunities. This is formalised in both the City of Wollongong Climate Change Mitigation Plan and the Invest Wollongong - Investment Prospectus.

Illawarra has been identified by the NSW Government and Energy Co as one of five Renewable Energy zones. The 'offshore' aspect of the offshore wind area is governed by the Australian Government under the Offshore Electricity Infrastructure Act. The 'onshore' transmission connection approval pathway is largely governed by the NSW Government. This proposal covers area that extends from Wombarra in our Local Government Area, through Shellharbour Local Government Area and into the Kiama Local Government Area.

Council is a stakeholder in both processes and will be advocating for positive short and long-term outcomes for the Wollongong community. We will look to make a submission once we have had time to carefully consider the proposal.

Regards , Cr. Linda Campbell
