

ITEM 12 STATEMENT OF INVESTMENT - JUNE 2022

This report provides an overview of Council's investment portfolio performance for the month of June 2022.

Council had an average weighted return for June 2022 of -0.09% which was below the benchmark return of 0.05%. This result was primarily due to negative valuations of the consolidated Floating Rate Notes and the NSW TCorp Growth funds reflecting the continuing volatility in the market. These valuations have impacted unfavourably on the phased investment income to budget between the months of January and June. However, both growth funds are expected to achieve their long term return objectives over time. The remainder of Council's portfolio continues to provide a high degree of credit quality and liquidity, but historically low interest returns.

RECOMMENDATION

Council receive the Statement of Investment for June 2022.

REPORT AUTHORISATIONS

Report of: Brian Jenkins, Chief Financial Officer

ATTACHMENTS

- 1 Statement of Investment - June 2022
- 2 Investment Income Compared to Budget 2021-2022

BACKGROUND

Council is required to invest its surplus funds in accordance with the Ministerial Investment Order and Office of Local Government guidelines. The Order reflects a conservative approach and restricts the investment types available to Council. In compliance with the Order and Office of Local Government guidelines, Council adopted an Investment Policy on 10 December 2018. The Investment Policy provides a framework for the credit quality, institutional diversification and maturity constraints Council's portfolio can be exposed to. Council's investment portfolio was controlled by Council's Finance Division during the period to ensure compliance with the Investment Policy. Council's Audit, Risk and Improvement Committee's (ARIC) role of overseer provides for the review of Council's Investment Policy and the Management Investment Strategy.

Council's Responsible Accounting Officer is required to sign the complying Statement of Investment contained within the report, certifying that all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.

Council's investment holdings as at 30 June 2022 were \$162,627,549 (Statement of Investment attached) [30 June 2021 \$170,236,877]. These figures include Council's interest in CivicRisk Mutual Ltd recognised at fair value as at 30 June 2021.

Council had an average weighted return for June 2022 of -0.09% which was below the benchmark return of 0.05%. This result was primarily due to negative valuations of the consolidated Floating Rate Notes and the NSW TCorp Growth funds reflecting the continuing volatility in the market. The remainder of Council's portfolio continues to provide a high degree of credit quality and liquidity, but historically low interest returns. The global markets are still experiencing unprecedented turmoil and volatility in the wake of COVID-19 and may still provide uncertainty for the foreseeable future.

At 30 June 2022, year to date interest and investment revenue of -\$266,285 was recognised compared to the year to date budget of \$684,908, with a high level of volatility and valuations up and down during the year.

Council's 17 floating rate notes had a net decrease in value of \$76,258 for June 2022.

Council holds two Mortgaged Backed Securities (MBS) that recorded a net increase in value of \$9,654 for June 2022. The coupon margins on these investments reflect pre-Global Financial Crisis (GFC) pricing. For example, the Emerald A is paying 45 basis points over the BBSW where a comparative investment is now paying 100 basis points over the BBSW. This is reflected in the coupon rates on both investments. While the maturity dates are outside Council’s control, the investment advisors had previously indicated capital is not at risk at that stage and recommended a hold strategy due to the illiquid nature of the investment.

Council has three investment holdings under the NSW TCorp Hour Glass Facility: the Long-Term Growth Fund; the Medium-Term Growth Fund and the Cash Fund. The Long-Term Growth recorded a net decrease in value of \$148,343; the Medium-Term Growth Fund recorded a net decrease in value of \$138,031 and the Cash Fund recorded a net decrease in value of \$90 in June 2022. The fluctuations in both the Long-Term Growth and Medium-Term Growth Funds are a reflection of the current share market volatility both domestically and internationally and is diversified across a number of different asset classes that have differing risk and return characteristics.

Negative valuations between the months of January and June have impacted unfavourably on Council’s phased investment income to budget. However, both growth funds are expected to achieve their long-term return objectives over time. The Medium-Term Fund has returned -7.73% over the past 12 months and the Long-Term Fund -7.84%. As a result of NSW TCorp recent notification to all investors of the upcoming closure of the TCorp Cash Fund on 31 October 2022, due to the continued client decline and insufficient demand to keep the fund open, Council completed a full unit redemption from the NSW TCorp Cash Fund, effective 1 June 2022.

At their July 2022 meeting, the Reserve Bank of Australia (RBA) decided to increase the cash rate target by 50 basis points from 0.85% to 1.35%. The increase in interest rates is a further step in the withdrawal of the extraordinary monetary support that was put in place to help the Australian economy during the pandemic. The resilience of the economy and the higher inflation means that extraordinary support is no longer needed. The RBA will continue to assess the outlook and adjust policy as needed to ensure inflation returns to target over time and continue to monitor information and evolving balance of risks and determine the timing and extent of future interest rate increases.

The current Investment Policy sets a 40% maximum exposure limit to individual institutions within the AAA category. This limit is currently considered to include funds held within the NAB (Council’s banker) savings account that is used daily to hold cash. Through the banking services contract with the NAB, that includes a fixed margin over the current cash rate, this account is providing a better return than alternate short to medium term investments available to Council. At the end of June 2022, the exposure to NAB was 24.31%, which was just below the 25% target set in the Investment Strategy. The NAB savings account is currently the best option available for surplus cash, however this will be continually monitored to ensure best value.

The current investment portfolio complies with Council’s Investment Policy which was endorsed by Council on 10 December 2018. Council’s Responsible Accounting Officer has signed the Statement of Investment contained within the report, certifying all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.

PLANNING AND POLICY IMPACT

This report relates to the commitments of Council as contained within the Strategic Management Plans.

This report contributes to the delivery of Our Wollongong Our Future 2032 Goal 4 “We are a connected and engaged community”. It specifically delivers on the following:

Community Strategic Plan 2032	Delivery Program 2022-2026	Operational Plan 2022-23
Strategy	Service	Operational Plan Actions
4.8 Council’s resources are managed effectively to ensure long term financial sustainability.	Financial Services	Review Financial Strategy to include goals and actions aimed to improve financial capacity to respond to increased service demands.

CONCLUSION

The investments for June 2022 recorded an average weighted return below the annualised Bloomberg Bank Bill Index Benchmark and performed unfavourably when compared to the year-to-date budget.

* The maturity date provided is the weighted-average life of the security. This is the average amount of time that will elapse from the date of security's issuance until each dollar is repaid based on an actuarial assessment. Assessments are carried out on a regular basis which can potentially extend the life of the investment. Current assessments anticipate an extension of life of the investment.

This is to certify that all of the above investments have been placed in accordance with the Act, the regulations and Council's Investment Policies.
