

DETERMINATION AND STATEMENT OF REASONS

WOLLONGONG CITY COUNCIL – WOLLONGONG LOCAL PLANNING PANEL (WLPP)

DATE OF DETERMINATION	18 December 2019
PANEL MEMBERS	Robert Montgomery (Chair), Glenn Falson, Helena Miller, Trish McBride (Community Representative)

Public meeting held at Wollongong City Council, Level 9 Function Room, 41 Burelli Street, Wollongong on 18 December 2019 opened at 5:00pm and closed at 5.30pm.

MATTER DETERMINED

DA-2019/1177, Lot 3 SP 78814, and Unit 3 - 8 Pioneer Drive, Woonona (as described in detail in schedule 1).

PUBLIC SUBMISSIONS

No one addressed the Panel for this Item.

PANEL CONSIDERATION AND DECISION

The Panel considered the matters listed at item 7, and the material presented at the meeting and the matters observed at site inspections listed at item 8 in Schedule 1.

The Panel has considered the applicant's written request to justify the contravention of the FSR standard and is satisfied that it demonstrates that compliance with the development standard is unreasonable and unnecessary in the circumstances of this case and that there are sufficient environmental planning grounds to justify contravening the development standard.

The Panel is also satisfied that the proposed development will be in the public interest because it is consistent with the objectives of the relevant development standard and the objectives of the relevant zone.

The Panel determined to approve the development application as described in Schedule 1 pursuant to section 4.16 of the *Environmental Planning and Assessment Act 1979*.

The decision was unanimous.

REASONS FOR THE DECISION

The reasons for the decision of the Panel were:

- The Panel agrees with the officer's assessment and recommendation;
- The Panel is of the view that the increase in floor space as a consequence of the mezzanine levels which have been constructed will have no additional impact;
- The proposed additional conditions will provide additional clarity in respect of the use of the units and the unauthorised structures;
- The Panel notes that the circumstances of this application justify the additional floor space created, particularly as there is an excess in car parking on the site which satisfies the DCP requirements for the additional floor space. It is also noted that the uses of the individual units are of low intensity. Therefore, the proposal is acceptable due to the unique circumstances presented.

CONDITIONS

The development application was approved subject to the conditions in the Council Assessment Report with the following amendments:-

1. **Building Information Certificate**
Prior to the use of the mezzanine area, a Building Information Certificate must be issued for the mezzanine area in accordance with Division 6.7 of the Environmental Planning & Assessment Act 1979.
2. **Use of Mezzanine Area**
The Mezzanine Area in to be used in conjunction with the approved use of the unit only.

3. Replace the proposed condition titled 'Use of Areas within Unit' with the following condition:
Use of Loading Areas
The area within the unit designated for loading, unloading and handling of goods shall not be used for any other purpose.
4. Remove the proposed condition limiting the number of staff to be on the premises.
