ATTENDANCE OF COUNCILLOR

During the Disclosures of Interest, the time being 6.01 pm, Councillor Connor attended the meeting.

DISCLOSURES OF INTEREST

Councillor Martin declared a non-pecuniary, non-significant conflict of interest in Items 3 and 7 insofar as the Items relate to planning proposals and she works for the State Government as a Planner. However, Councillor Martin advised that she does not work on matters relating to the Wollongong Local Government Area.

Councillor Kershaw advised of a significant, non-pecuniary interest in Item 1 as her husband is President of a Surf Lifesaving Club mentioned in the report, and her children are Nippers. She also has many friends and associates involved in a number of the Clubs mentioned in the report.

CONFIRMATION OF MINUTES OF ORDINARY MEETING OF COUNCIL HELD ON MONDAY, 12 AUGUST 2013

176 **COUNCIL'S RESOLUTION** - RESOLVED UNANIMOUSLY on the motion of Councillor Brown seconded Councillor Colacino that the Minutes of the Ordinary Meeting of Council held on Monday, 12 August 2013 (a copy having been circulated to Councillors) be taken as read and confirmed, subject to the Disclosure of Interest declared by Councillor Martin in relation to Port Kembla Copper, being amended from 'long-term professional relationship' to read 'long-term friendship'.

DEPARTURE OF COUNCILLORS

Following the address by Mr Grubb, Councillors Kershaw and Brown departed the meeting, the time being 6.10 pm. Councillors Kershaw and Brown returned to the meeting at 6.16 pm, at the commencement of the address by Ms J Hill.

PUBLIC ACCESS FORUM – DRAFT DUNE MANAGEMENT STRATEGY

Mr D Grubb supported the ongoing education about the importance and management of dunes. Although he believed the whole beach should be addressed in time, the initial implementation to address the high-use recreation areas was a start and would surely address the line of sight and safety issues, which would be welcomed by lifeguards and the community. He said that implementation plans were specific, but additional funding sources were necessary sooner rather than later. He asked Council to be proactive, rather than reactive when it came to dune management.

In conclusion, Mr Grubb expressed his thanks for the commitment to the project.

On behalf of Surf Lifesaving Illawarra, Mr V Zanotto said that Surf Lifesaving Clubs were grateful in having been a part of the process of engagement in determining what is best for our beaches. He said that the flow-on benefits to the City and community as a whole were both economic and social in value. He stated that our beaches, along with our escarpment, are major components in making our City unique, beautiful and liveable. The consequences of decisions made in the past to have vegetation along our beaches are now known.

Mr Zanotto said that recommendations 1 and 2 in the report were fully supported and to a certain extent, recommendation 3, except the fact that there is no timeframe for reporting back and for adoption by Council. He had concerns that it may 'fall through the cracks' because other deemed priorities may take over. Monies being allocated are welcomed, but are not enough and Surf Lifesaving Illawarra sincerely asked that further funds be allocated to speed up the process, because it was a 'race against time'. In conclusion, Mr Zanotto said that the works that need to be undertaken cannot be underestimated.

Ms J Hill advised that the Plan before Council was a critical instrument and yet had not been on public exhibition, nor had it been presented to the Estuary and Coastal Zone Management Committee for endorsement. In terms of the specific management options outlined in pages 8 to 10 of the business paper, Ms Hill felt that these were outside the scope of the Strategy and should be subject to the normal community engagement. The Plan also did not address ongoing maintenance issues, including weed control.

Ms Hill offered various suggestions including redirecting resources to pruning back all vegetation, and as an example suggested that park

Minute No.

maintenance staff cut back and remove overgrown vegetation. She said that this option was small and cheap and offered an immediate first step in correcting the line of sight. She felt that once the sand was reinstated to its balance, the use of heavy machinery may not be needed.

In conclusion, Ms Hill said that she had raised concerns about due process and transparency. She had also listed a fair and easy option which she has not otherwise had the opportunity to raise.

PUBLIC ACCESS FORUM - UPDATE ON DRAFT WOLLONGONG COASTAL ZONE MANAGEMENT PLAN

On behalf of residents of Beach Drive, Woonona, Mr R Kennedy, advised that the Planned Retreat had allegedly been removed as an option for Woonona Beach back on 9 July 2012, as stated in the post exhibition report. As such, he felt there is now no need for the Section 149 coastal hazard notations on the 19 properties at 28 to 64 Beach Drive, Woonona. Mr Kennedy said the notations were causing unnecessary hurt and stress to affected residents.

Currently there are projects worth \$72M needed to be eliminated from the NSW Government's \$100M Restart NSW Illawarra Infrastructure Fund over the next few weeks so that the Minister can announce the successful projects before the end of September 2013. In conclusion, he said that Project 20, which seeks \$5M for the Grand Pacific Walk Stage 1, had a high probability of being dropped due to the uncertainty caused by the retention of the Section 149 coastal hazard notations on the 19 properties opposite Woonona Beach as it could be argued that Council will allow the shared-way / bike track to be washed into the sea, if and when the sea rises.

PUBLIC ACCESS FORUM – WEST DAPTO RELEASE AREA - YALLAH MARSHALL MOUNT PRECINCT

Ms J Ball advised that Council, in consultation with landowners, has prepared the draft structure plan for Yallah-Marshall Mount. The vision for the precinct is to deliver a best practice environmentally sustainable village and community, in a setting which conserves native vegetation. The vision also provides housing choice and promotes activity. The achievement of the vision depends on a high quality urban design of the Town Centre.

Ms Ball requested that prior to Council endorsing the draft Structure Plan for Yallah-Marshall Mount, that a suitably qualified and experienced Urban

Minute No.

Designer and Urban Economist be engaged to prepare a street layout of the Marshall Mount Town Centre. Ms Ball also asked that Council review the rural residential lot sizes and maximise land use within 1.5 kilometres of the Town Centre.

Mr L Fredericks, of Miltonbrook Project Management and representing landholders in the Yallah/Marshall Mount precinct, felt that the structure plan was generally well conceived. There were however, a number of planning matters that he felt had not yet been adequately considered and he sought Council's concurrence to pause and review these, prior to putting the plan on exhibition.

Firstly, in the Town Centre he felt that the assistance of an urban designer and an urban economist was required to properly resolve town centre zonings. Secondly, in many locations, the proposed creek corridor widths of the minor tributaries are much wider than necessary and thirdly, there is concern that some of the proposed minimum lot sizes are not consistent with the proposed zones.

PUBLIC ACCESS FORUM – WOLLONGONG DEVELOPMENT CONTROL PLAN - BOARDING HOUSES

Mr D Winterbottom said that there is considerable community concern about boarding houses, which has been further highlighted by the number of adverse comments stemming from the workshops held in association with the Keiraville/Gwynneville Community Plan. He stated that the proposed changes to the controls will do little towards solving the issue and requested Council to amend the Development Control Plan as follows –

- i Place specific restrictions on the location of boarding houses;
- ii Prevent boarding houses from being clustered in the same street;
- iii Increase car parking provision;
- iv Require new buildings to comply with the controls for flats.

In conclusion, Mr Winterbottom requested that Council lobby the State Government for legislative changes.

PUBLIC ACCESS FORUM - PROGRESS ON THE PLANNED DEMOLITION OF THE PORT KEMBLA COPPER STACK

General Manager and Director of Port Kembla Copper (PKC), Mr I Wilson, addressed the meeting in relation to the planned demolition of the company's disused stack. He said that PKC had been open and accessible throughout the planning process, with regular media updates, letters to the community, door knocking and staging of a well-attended information session.

Mr Wilson advised Councillors on the status of plans.

LORD MAYORAL MINUTE – CONDOLENCE MOTION

The Lord Mayor advised that he would like to move a motion of condolence to remember a staff member who sadly passed away over the weekend.

Ruby Dimitrievski commenced with Council as a Stenographer in July 2003, eventually taking on the role of Graffiti Management Project Officer. Ruby was devoted to her role and dearly respected by all her colleagues for her loving and nurturing personality. Her quiet deeds never went unnoticed, as she happily moved around the office, ensuring everyone and everything was in order with her big cheery smile.

The Lord Mayor, on behalf of all Councillors and staff, extended deepest sympathy to Ruby's family, friends and work colleagues. The Lord Mayor requested that a moment's silence be observed.

A moment's silence was duly observed.

WELCOME – DIRECTOR INFRASTRUCTURE AND WORKS

The Lord Mayor introduced and extended a welcome to Council's newly appointed Director Infrastructure and Works, Mr Mike Hyde.

Minute No.

ITEM 2 - UPDATE ON THE DRAFT WOLLONGONG COASTAL ZONE MANAGEMENT PLAN

179 COUNCIL'S RESOLUTION – MOVED Councillor Petty seconded Councillor Connor that -

- 1 Council note the information provided in the report.
- 2 Council endorse the continued use of the previous state-wide sea level rise benchmarks for planning and development decisions until a pathway for identifying locally appropriate sea level rise values is identified by the State Government.
- 3 Council retain the current coastal hazard notations on Section 149 Planning Certificates until further direction on this matter is provided by the State Government.
- 4 Council officers continue to monitor the reform process and provide another update to Council after 12 months.

An AMENDMENT was MOVED by Councillor Kershaw seconded Councillor Blicavs that –

- 1 Council note the information provided in the report.
- 2 Council officers continue to monitor the reform process and provide another update to Council after 12 months.
- 3 Until a more informed position is made by the State Government, Section 149 Certificates not include notations regarding coastal hazards.

Councillor Kershaw's AMENDMENT on being PUT to the VOTE was LOST.

In favour Councillors Kershaw, Blicavs, Crasnich and Dorahy
Against Councillors Connor, Brown, Martin, Takacs, Colacino, Curran, Petty and Bradbery

Councillor Petty's MOTION on being PUT to the VOTE was CARRIED.

In favour Councillors Connor, Brown, Martin, Takacs, Colacino, Curran, Petty and Bradbery

DEPARTURE OF COUNCILLORS

During discussion and prior to voting on Item 3 Councillors Petty and Curran departed and returned to the meeting, the times being from 8.20 pm to 8.23 pm, and from 8.29 pm to 8.31 pm, respectively.

ITEM 3 - WEST DAPTO RELEASE AREA - YALLAH MARSHALL MOUNT PRECINCT - DRAFT STRUCTURE PLAN EXHIBITION

180 COUNCIL'S RESOLUTION – RESOLVED on the motion of Councillor Martin seconded Councillor Connor that -

- 1 The matter be deferred in order to provide a final opportunity to discuss the Planning Proposal with officers, Office of Environment and Heritage, Department of Planning and Infrastructure, available Councillors and landholders, and to discuss in more detail matters including, but not limited to, a better understanding of the flooding issues, reconsideration of the lot sizes in the rural residential zoned areas and the extent of the riparian and E3 Environmental Management zoned land.
- 2 The meeting should also identify the aspirations, principles and design considerations for the future Development Control Plan for Yallah / Marshall Mount, including how to incorporate best practice urban design and economics in the next stage of detailed design for the new town of Marshall Mount and the provision of open space and street plantings to encourage connectivity between natural areas and encourage environmental, recreational and community outcomes.
- 3 The meeting occur as soon as possible so a final report can be provided for a resolution of Council before the end of 2013.

Variation The variations moved by –

- *Councillor Kershaw to replace to the word 'interested' with the word 'available' in Part 1 of the recommendation;*
- *Councillor Curran to include the Office of Environment and Heritage in Part 1 of the recommendation; and*
