

ITEM 19 STATEMENT OF INVESTMENTS - MAY 2017

This report provides an overview of Council's investment portfolio performance for the month of May 2017.

Council's average weighted return for May 2017 was 2.56% which was above the benchmark return of 1.62%. The result was primarily due to solid returns received on the term deposits. The remainder of Council's portfolio continues to provide a high level of consistency in income and a high degree credit quality and liquidity.

RECOMMENDATION

Council receive the Statements of Investments for May 2017.

REPORT AUTHORISATIONS

Report of: Brian Jenkins, Manager Finance

ATTACHMENTS

- 1 Statements of Investments - May 2017
- 2 Investment Income Compared to Budget 2016-2017

BACKGROUND

Council is required to invest its surplus funds in accordance with the Ministerial Investment Order and Division of Local Government guidelines. The Order reflects a conservative approach and restricts the investment types available to Council. In compliance with the Order and Division of Local Government guidelines, Council adopted an Investment Policy on 19 October 2015. The Investment Policy provides a framework for the credit quality, institutional diversification and maturity constraints that Council's portfolio can be exposed to. Council's investment portfolio was controlled by Council's Finance Division during the period to ensure compliance with the Investment Policy. Council's Governance Committee's role of overseer provides for the review of the Council's Investment Policy and Management Investment Strategy.

Council's Responsible Accounting Officer is required to sign the complying Statements of Investments contained within the report, certifying that all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.

Council's investment holdings as at 26 May 2017 were \$162,978,925 (Statement of Investments attached) [27 May 2016 \$158,881,978].

Council's average weighted return for May 2017 was 2.56% which was above the benchmark return of 1.62%. The result was primarily due to solid returns received on the term. The remainder of Council's portfolio continues to provide a high level of consistency in income and a high degree credit quality and liquidity.

At 26 May 2017, year to date interest and investment revenue of \$4,677,053 was recognised compared to the year to date budget of \$4,792,935 (as revised in the March Quarterly Review).

Council's CBA Zero Coupon Bond experienced an increase in valuation for May 2017 of \$11,894. The valuation methodology used by Laminar (Council's investment consultants) discounts the bond using a margin for a straight four year CBA obligation but also considers the illiquidity premium, this being a restructured deal and there being limited bids on the security. As this bond gradually nears maturity, movements in interest rates and liquidity will have less of an impact on the securities valuation. While there will be short term fluctuations along the way, the investments valuation will gradually increase to its

\$4M maturity value. Council’s seventeen floating rate notes had a net decrease in value of \$10,895 for May 2017.

Council holds two Mortgaged Backed Securities (MBS) that recorded a net decrease in value of \$15,775 for May 2017. These investments continue to pay higher than normal variable rates. While the maturity dates are outside Council’s control, the investment advisors had previously indicated that capital is not at risk at that stage and recommended a hold strategy due to the illiquid nature of the investment.

The NSW TCorp Long-Term Growth Facility recorded an increase in value of \$16,672 in May 2017. The fluctuation is a reflection of the current share market volatility both domestically and internationally.

During May 2017, Standard & Poor- a global rating agency issued a lowering of the long-term issuer credit rating and outlook status on 23 Australian Financial Institutions; predominantly Regional Banks’ and Residential mortgage-backed securities (RMBS) providers by one notch each. The credit ratings on the four major Australian banks--Australia and New Zealand Banking Group Ltd., Commonwealth Bank of Australia, National Australia Bank Ltd., and Westpac Banking Corp remained unchanged. Council’s portfolio includes investments with some institutions impacted by these changes, however, Council’s portfolio remains within policy and strategy limits. Council will continue to monitor the portfolio’s risk rating exposures and enforce the Investment Policy and reassess Investment Strategy targets and limits as required.

At the May 2017 RBA meeting, the official cash rate remained unchanged at 1.50%. The RBA has advised that it would continue to assess the outlook and adjust policy as needed to foster sustainable growth in demand and inflation outcomes consistent with the inflation target over time. The current inflation rate is quite low and below target.

This report complies with Council’s Investment Policy which was endorsed by Council on 19 October 2015. Council’s Responsible Accounting Officer has signed the complying Statements of Investments contained within the report, certifying that all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.

PLANNING AND POLICY IMPACT

This report contributes to the delivery of Wollongong 2022 goal ‘*We are a connected and engaged community*’. It specifically delivers on the following:

Community Strategic Plan	Delivery Program 2012-17	Annual Plan 2016-17
Strategy	5 Year Action	Annual Deliverables
4.4.5 Finances are managed effectively to ensure long term financial sustainability	4.4.5.1 Effective and transparent financial management systems are in place	Provide accurate and timely financial reports monthly, quarterly and via the annual financial statement
		Continuous Budget Management is in place, controlled and reported
		Manage and further develop compliance program
		Monitor and review achievement of Financial Strategy

CONCLUSION

The investments for May 2017 have performed favourably compared to the year to date budget and the portfolio recorded an average weighted return above the annualised Bloomberg Bank Bill Index Benchmark.

* The maturity date provided is the weighted-average life of the security. This is the average amount of time that will elapse from the date of security's issuance until each dollar is repaid based on an actuarial assessment. Assessments are carried out on a regular basis which can potentially extend the life of the investment. Current assessments anticipate an extension of life of the investment.

This is to certify that all of the above investments have been placed in accordance with the Act, the regulations and Council's Investment Policies.
