

ITEM 20 STATEMENT OF INVESTMENT - JUNE 2018

This report provides an overview of Council's investment portfolio performance for the month of June 2018.

Council's average weighted return for June 2018 was 2.34% which was above the benchmark return of 1.87%. The result was primarily due to the positive marked to market valuation of the aggregated Floating Rate Notes and NSW TCorp Hour Glass facilities in Council's portfolio. The remainder of Council's portfolio continues to provide a high level of consistency in income and a high degree of credit quality and liquidity.

RECOMMENDATION

Council receive the Statement of Investment for June 2018.

BACKGROUND

Council is required to invest its surplus funds in accordance with the Ministerial Investment Order and Division of Local Government guidelines. The Order reflects a conservative approach and restricts the investment types available to Council. In compliance with the Order and Division of Local Government guidelines, Council adopted an Investment Policy on 19 October 2015. The Investment Policy provides a framework for the credit quality, institutional diversification and maturity constraints that Council's portfolio can be exposed to. Council's investment portfolio was controlled by Council's Finance Division during the period to ensure compliance with the Investment Policy. Council's Governance Committee's role of overseer provides for the review of the Council's Investment Policy and Management Investment Strategy.

Council's Responsible Accounting Officer is required to sign the complying Statement of Investment contained within the report, certifying that all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.

Council's investment holdings as at 29 June 2018 were \$157,532,049 (Statement of Investment attached) [30 June 2017 \$167,292,849].

Council's average weighted return for June 2018 was 2.34% which was above the benchmark return of 1.87%. The result was primarily due to the positive marked to market valuation of the aggregated Floating Rate Notes and NSW TCorp Hour Glass facilities in Council's portfolio. The remainder of Council's portfolio continues to provide a high level of consistency in income and a high degree of credit quality and liquidity.

At 29 June 2018, year to date interest and investment revenue of \$4,703,327 was recognised compared to the year to date budget of \$4,733,202.

Council's 20 floating rate notes had a net decrease in value of \$41,770 for June 2018.

Council holds two Mortgaged Backed Securities (MBS) that recorded a net increase in value of \$6,527 for June 2018. The coupon margins on these investments reflect pre Global Financial Crisis (GFC) pricing. For example, the Emerald A is paying 45 basis points over the BBSW where a comparative investment is now paying 100 basis points over the BBSW. This is reflected in the coupon rates on both these investments. While the maturity dates are outside Council's control, the investment advisors had

previously indicated that capital is not at risk at that stage and recommended a hold strategy due to the illiquid nature of the investment.

Council has two investment holdings under the NSW TCorp Hour Glass Facility: the Long-Term Growth Facility and the NSW TCorpIM Cash Fund. The Long-Term Growth recorded an increase in value of \$21,279.45 and the Cash Fund recorded an increase in value of \$159 in June. The fluctuation in the Long-Term Growth Facility is a reflection of the current share market volatility both domestically and internationally, whereas the Cash Fund provides relatively stable returns with low potential for capital loss while maintaining high levels of liquidity, similar to an at call account. The fund only invests in Australian cash and fixed interests.

At the June 2018 RBA meeting, the official cash rate remained unchanged at 1.50%. The RBA has advised that it would continue to assess the outlook and adjust policy as needed to foster sustainable growth in demand and inflation outcomes consistent with the inflation target over time. The current inflation rate is quite low and below target.

This report complies with Council’s Investment Policy which was endorsed by Council on 19 October 2015. Council’s Responsible Accounting Officer has signed the complying Statement of Investment contained within the report, certifying that all investments were made in accordance with the Local Government Act 1993 and the Local Government Regulation 2005.
